Learn more about financing options for mobile storage. The FEMP website has documented previous examples of EVSE funding opportunities used by select DOD, DOT, and State ...

This paper introduces a novel testing environment that integrates unidirectional and bidirectional charging infrastructures into an existing hybrid energy storage system.

Sigenergy"s innovative and high-performance DC charger, the Sigen EV DC Charging Module, offers stable bidirectional charging of up to 25 kW. It is ready for V2X ...

Through a comprehensive literature research and in-depth interviews with 16 V2G experts, we identify the current state, research gaps, and insights related to V2G. In particular, ...

Optimization strategy for the energy storage capacity of a charging station with photovoltaic and energy storage considering orderly ...

This paper introduces a novel testing environment that integrates unidirectional and bidirectional charging infrastructures into an ...

Hager Group develops and markets innovative solutions that allow electric vehicles to be used as storage for excess solar energy and feed this energy back into the ...

Learn more about financing options for mobile storage. The FEMP website has documented previous examples of EVSE funding opportunities used ...
