The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

These containers function as a stand-alone energy storage system that is specifically designed to store energy generated by solar panels.

The 100kW/241kWh liquid cooling energy storage system adopts an "All-In-One" design concept, with ultra-high integration that combines energy storage batteries, BMS (Battery Management ...

CTS 100kW/215kWh LiFePO4 battery energy storage system boosts solar efficiency by 40%, IP54-rated, grid-integrated, trusted by 500+ global sites. Request ROI analysis or technical ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

We adapt our reference design to fit customers' specific energy storage/power requirements and environmental conditions. We use modelling simulation to optimize system design for ...

Delivers 100 kW rated AC power and 232 kWh battery capacity for industrial and commercial energy needs. Designed with IP55 protection, transformer isolation, and real-time monitoring ...

Powered by premium 610W panels, the 100KW Mobile Solar Container from HighJoule delivers maximum energy density in a compact 20ft format. It's optimized for grid-tied setups requiring ...
