Situated in the Ignié Special Economic Zone (SEZ), the project will generate 55 MW from a hybrid solar plant and an additional 10 MW from a biomass facility. Set for completion ...

Our containerised, pre-installed solar systems are equipped with top-quality solar PV modules and electronics including lithium-ion batteries and come in three standardised yet adjustable ...

The Republic of the Congo has signed a deal with Dubai-based renewable energy company AMEA Power for the construction of a 100 MW solar PV facility. The deal was signed ...

Democratic Republic of Congo on Thursday signed a \$100 million solar-hybrid power deal with a consortium led by Gridworks, to provide electricity to half a million people across three cities ...

With containerized solar, reliable power in Congo's toughest environments isn't just possible - it's profitable. Let's discuss how modular solutions can light up your operations.

Situated in the Ignié Special Economic Zone (SEZ), the project will generate 55 MW from a hybrid solar plant and an additional 10 MW ...

In the quest to tackle energy challenges in the Democratic Republic of Congo (DRC), JNTech is spearheading the adoption of hybrid solar-diesel microgrid systems.

This power station is expected to diversify electricity sources in DRC, where solar power accounted for 20 MW out of a total of 2.9 GW of installed capacity as of December 2022.
