We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...

One of the key benefits of putting the solar array into the container is mobility. You can simply transport this unit into even the most remote locations and start to harvest energy within minutes.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go fully off grid with a few other add-ons, directly from Bob"s Containers.

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.
