BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar ...

Today's gold standard for solar containers. Why it's a favorite: This battery is a workhorse. It's very stable, tolerant of high temperatures, and doesn't lose its capacity quickly ...

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the ...

Fast charge and discharge: Fast charge and discharge at 1C current. Small size, strong battery life: the volume is about 2/3 of the lead-acid battery, weight is about 1/3 of the lead-acid ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...
