What is Cambium Networks 450 platform?

Cambium Networks industry-leading 450 platform includes the all new PMP 450i and PTP 450i radios. The 450i product platform is the most scalable industrial-grade wireless broadband solution available. The 450 platform adds another tool to more completely connect hard-to-reach subscribers with the affordable MicroPoP Fixed Wireless Access Point.

What is 450B SM?

450b SMs are the most popular choice for service providers due to their cost-effectiveness and easy-to-install form factors. 450b SMs offer wideband support, gigabit Ethernet POE and advanced processing capability. 450b SMs are available for 5 GHz and 3 GHz.*

What is a PMP 450m AP?

The PMP 450m AP is one of the most scalable, highest-capacity and spectrally efficient APs in the industry. cnMedusa is a first-of-its-kind technology in a fixed wireless broadband access platform. The 450m utilizes MU-MIMO technology in a cost-effective solution.

What is PMP 450m 5 GHz?

Leading Edge antenna innovation brings Smart Beamforming to the 450 platform, ZERO RF cables to connect or weatherproof. PMP 450m 5 GHz delivers >500 Mbps actual throughput in a 20 MHz channel (20+bps/Hz, and over 40 bps/Hz when deployed in frequency re-use configurations).

ERS Wireless offers dependable two-way radios and video cameras that are crucial for EMS for their ability to facilitate quick, reliable communication and provide situational awareness, ...

The 450m utilizes MU-MIMO technology in a cost-effective solution. The implementation of MU-MIMO coupled with beamforming technology delivers groundbreaking spectral efficiency and ...

In addition to standard analog and SIP compatible blue light towers, GAI-TRONICS offers wireless solar and cellular call stations. These solutions are ideal depending where your power source ...

The TCOM Communication Solar Tower is the ultimate solution for industries and organizations requiring reliable, off-grid communication capabilities. ...

450M wireless solar container communication station EMS
