The solar PV container is modular product in a series of products enabling full distributed energy plant deployments anywhere with enough open space to support solar PV.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

The mobile solar containers carry photovoltaic panels, which can be folded and unfolded like an accordion. Such systems are designed for situations that need flexible and ...

Our high-performance solar container is designed to deliver reliable, clean energy in remote or off-grid environments. Built with premium components and engineered for autonomous operation, ...

We design and sell foldable and unfoldable solar trailers, quiet, with no maintenance, non polluting, adjustable & orientable and 20-foot maritim ...

Soldier Operations: Deployable solar hubs supply power for field bases with hardened, encrypted EMS controls and ballistic-grade shelter. Think of a fold-up solar ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, ...
