Abdul Bari Omar, the CEO of power utility Da Afghanistan Breshna Sherkat (DABS) under the Islamic Emirate, has announced the launch of 13 new power generation ...

OverviewHydroelectricityImported electricityCrude oil, natural gas, and coalSolar and wind farmsBiomass and biogasGeothermalExternal linksEnergy in Afghanistan is provided by hydropower followed by fossil fuel and solar power. Currently, over 85% of Afghanistan's population has access to electricity. This covers the major cities in the country. Many rural areas do not have access to adequate electricity but this should change after more power stations are built and the major CASA-1000 project is completed.
