Are motor vehicle manufacturers a major employer in Argentina?

Motor vehicle and auto parts manufacturers are major employers in a country that has struggled to create registered private sector employment. In 2024, over 27,000 Argentines were employed by motor vehicle manufacturers, with an additional 43,000 employed by auto parts companies and 4,000 employed by motorcycle manufacturers.

Which industrial associations represent Argentine automotive manufacturers?

Three major industrial associations represent Argentine automotive manufacturers. The *Asociaci3n de Fabricas de Automotores (ADEFA)* was founded in 1961 to represent motor vehicle manufacturers and is a member of the International Automobile Manufacturers Association (OICA) based in Paris.

What is the truck and bus industry in Argentina?

Argentina's truck and bus assembly industry is dominated by local subsidiaries of Daimler Truck, Scania AB, and Iveco. Industry economists expect production of 19,000 units in 2025, driven by end market growth in energy and agriculture in a country where over 90% of goods are transported by truck.

Why is the Argentine motor vehicle industry struggling?

Productivity challenges in the Argentine motor vehicle industry are partly due to limited economies of scale. Experts believe that an automotive assembly plant requires annual production volume of at least 100,000 to 300,000 units in order to achieve scale efficiencies.
