Discover automated battery manufacturing and testing solutions for modules and packs, ensuring efficiency, scalability, and high-quality production.

Discover the key features of a modern battery pack assembly line and how expert design and automation can boost performance, flexibility and output.

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are ...

As a leading global manufacturer and service provider of lithium-ion intelligent equipment, FHS closely follows industry developments and is committed to providing intelligent manufacturing ...

This state-of-the-art production line achieves seamless automated battery pack production. Spanning an impressive 16 meters, it integrates cutting-edge technology through the following ...

Contact us today to learn how our battery assembly automation solutions can transform your production line and deliver the performance you need in today's fast-paced market.

BSLBATT is proud to announce a breakthrough in our manufacturing capabilities: the launch of an advanced automated production line utilizing cutting-edge laser welding ...

Immerse yourself into the realm of pack assembly and end-of-line (EOL) testing with our animation, crafted to showcase the custom solutions offered by Bosch Rexroth for battery ...
