Developer Calder Stewart is planning to coordinate its Awarua Quadrant manufacturing and storage development near Invercargill with an inland port at Milburn near Milton in Otago.

On February 8, 2025, a Ukrainian manufacturing facility successfully commissioned a 250kW/600kWh industrial energy storage system to optimize power consumption and reduce ...

Background. The Long Duration Energy Storage (LDES) program has been allocated over \$270 million to invest in demonstration and deployment of non-lithium-ion long duration energy ...

The announcement of the Awarua Quadrant, a 513-hectare intermodal industrial and renewable energy hub in Invercargill, marks the ...

With a buildable area roughly the size of 733 rugby fields, the precinct's full development is projected to be worth more than \$2.5 billion. The ...

Summary: Explore how the Awaru Energy Storage Station is reshaping energy storage solutions across industries. From grid stabilization to renewable integration, discover its technical ...

Discover how Awaru 20kW inverters revolutionize solar energy storage systems for commercial and industrial applications. This guide explores technical advantages, market trends, and real ...

Calder Stewart said the Awarua development, on a 513-hectare site with a renewable energy precinct, would bring together large-scale manufacturing, warehousing, rail ...
