Does the DFC have any projects in Equatorial Guinea?

The DFC does not have any active projects in Equatorial Guinea, but there is potential for DFC programs to support investments in infrastructure (including water and power), telecommunications, agriculture, petrochemicals, and other industries. 13. Foreign Direct Investment Statistics

What currency does Equatorial Guinea use?

As a CEMAC member, Equatorial Guinea uses the Central African franc (XAF), which is backed by the French treasury and pegged to the euro at a fixed rate of 655.957 XAF/EUR. The XAF/USD exchange rate thus fluctuates with the value of the euro.

How does FDI affect the economy of Equatorial Guinea?

Historically, Equatorial Guinea's economy has benefitted from FDI in the oil and gas sector, which is responsible for a significant portion of government revenues. Government revenues were then spent on large or mega infrastructure projects built by international construction firms.

Is corruption a problem in Equatorial Guinea?

Corruption Governance is weak and the risk of corruption is perceived as widespread in Equatorial Guinea. The country continues to maintain a low ranking in corruption and governance indexes. Although some anti-corruption measures were introduced in 2012, the legislative and regulatory framework is not fully in line with international standards.

The facility under consideration is designed for an initial annual capacity of approximately 2 GWh, with a focus on utility-level and commercial & industrial (C&I) battery energy storage systems ...

By integrating digital, power electronics, thermal management, and energy storage management technologies (collectively known as 4T: bit, watt, heat, and battery), Huawei Digital Power ...

Our analysts track relevant industries related to the Equatorial Guinea Solar Energy and Battery Storage Market, allowing our clients with actionable intelligence and reliable forecasts tailored ...

Utility San Diego Gas and Electric (SDG&E) and Sumitomo Electric (SEI) have launched a 2MW/8MWh pilot vanadium redox flow battery storage project in California to study ...

Battery energy storage production in Equatorial Guinea
