---

BigBattery industrial lithium-ion battery packs were designed as a plug-and-play option for electric commercial and industrial vehicles currently using lead-acid batteries. By switching to ...

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

iM3NY offers one of the first US-manufactured cells based on technology developed in the United States. Our proprietary P-Series phosphate-based chemistry provides 10-20% better energy ...

Here is a list of all lithium cell factories in the U.S. This is a list of all lithium battery gigafactories in the U.S. and the major ones worldwide. A large gigafactory can consume 2.4 GWh of ...

We are the only Carbon-Neutral battery manufacturer supplying sustainable power solutions globally. From Manufacturing to End-Of-Life, BigBattery provides a closed-loop zero-landfill ...

Megafactory is one of the largest utility-scale battery factories in North America, capable of producing 10,000 Megapack units every year, equal to 40 GWh of clean energy storage.

Discover the next generation of battery manufacturing at our cutting-edge facility, where advanced automated assembly lines deliver unparalleled precision and efficiency, proudly revitalizing ...

With over 167,000 square feet of manufacturing space, our First Gigafactory is fully equipped to manufacture high quality cells, from mixing raw materials straight through to shipping the final ...
