-----  
What are the different types of PV inverters?

A5---3kW &#160; single MPPT single phase Grid-tie PV inverter? (Temporary Mode number is A8)  
A6---3.6kW single MPPT single phase Grid-tie PV inverter? A7---2.5kW dual MPPT single phase Grid-tie  
PV inverter (Temporary Models)? A8---3kW &#160; &#160; dual MPPT single phase Grid-tie PV inverter?  
A9---3.6kW dual MPPT single phase Grid-tie PV inverter?

How to identify inverter serial number?

Inverter serial number can also be identified from the inverter LCD, on the right bottom of the LCD screen  
inverter serial number can be seen. Following is the image attached for the reference. Figure 2: Serial Number  
on the inverter LCD On the mobile application:

How to identify the manufacturing date of SolarEdge inverters?

This document describes how to identify the manufacturing date of SolarEdge inverters. The manufacture date  
of SolarEdge inverters can be identified by decoding the four left hand digits of the serial number of the  
product. The serial number of the product, can be found on the information label attached to the product.

How do I find the serial number of my Sunny beam inverter?

Navigate through the menu points &quot; Service &gt; Diagnostics &gt; Device Information &quot; and  
select the item &quot; Sunny Beam &quot; or an inverter. The device information of the selected inverter is  
displayed. Alternatively, you can view the serial number by removing the cover of the battery compartment  
and looking through the gap above the battery.

The serial number of the inverter can be found at the bottom of the inverter label which is located on the right  
side of the inverter. It is important the second string of numbers, ...

Once the system has been installed but before it has been set up, confirm each device serial number matches  
the serial number listed in Tesla One. This step is critical to ensure the ...

The serial number, usually ten digits long, is indicated on the type label on the front cover of the inverter.  
Alternatively, the serial number can be read off via a data logger:

A serial number allows a company to identify a product and get additional information about it for  
replacement or to investigate it. For our ...

The serial number of the product, can be found on the information label attached to the product.

(Temporary Mode number is A7) A5---3kW single MPPT single phase Grid-tie PV inverter? (Temporary Mode number is A8) A6---3.6kW single MPPT single phase Grid ...

On the right, open the Equipment panel. Click Inverters ( ) to expand the list. Select the inverter -- the Serial Number will appear under the name. Copy the full serial number (letters + hyphen). ...

How do I find out the serial number of the inverter? On the box"s side or the inverter"s side. For more information, please email [service@opti-solar](mailto:service@opti-solar)
