Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

For a "PV ready" application, Solar PV Inverters can be mounted on the outer wall of the containers and offered as turn-key solution. The containerised system is customizable and can ...

With over 30 years of experience, our family-run company designs and manufactures custom battery packs for medical, defence, aerospace, renewable and many other industries.

Customized for Your Personal Use! Everyone's house and electricity usage are different, so we will tailor a solar power generation system that suits you.

We specialise in containerised solutions for lithium-ion systems - supporting everything from EV (electrical vehicle) infrastructure to renewable energy and industrial power. Built for high-risk ...

One of the key advantages of TLS Energy's Container Enclosure Body with Battery Rack is its customizability. Clients have the freedom to integrate additional components, such ...

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain ...
