Where did the Belgacom Towers get their name?

The buildings take their name from the telecommunications company Proximus. They were formerly known as the Belgacom Towers (French: Tours Belgacom; Dutch: Belgacomtorens) before the company's name change.

How will Brussels Airport improve intermodality?

For access to the airport, a pleasant green boulevard will be created with a park and space for the airport tram, in addition to car and bicycle traffic. Brussels Airport aims to continue encouraging intermodality and the use of alternative transport to and from the airport, in order to achieve a further modal shift.

What's new at Brussels Airport?

There will also be a new drop-off zone at Brussels Airport at departure hall level, behind the Sheraton hotel, giving passengers a smoother connection to the terminal, and separating drop-off traffic from other traffic flows. "This investment shows that the airport thinks ahead without losing sight of sustainability.

How is Brussels Airport preparing for the future?

Brussels Airport is gearing up for the future with an ambitious investment programme in passenger infrastructure, to meet the expected passenger growth in the coming years, all within the framework of its environmental permit. The airport aims to elevate travellers' experience and comfort, with a focus on quality, mobility and sustainability.
