The deadline for submission of standalone battery storage project proposals was December 5, 2024. The Bulgarian Ministry of Energy announced on December 6 that it has ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

From stabilizing solar farms to powering smart factories, lithium battery energy storage systems are rewriting Bulgaria's energy rules. With smart technology and strategic partnerships, the ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, ...

The deadline for submission of standalone battery storage project proposals was December 5, 2024. The Bulgarian Ministry of ...

Sepehr Soltani, lead energy storage analyst at Norwegian consultancy Rystad Energy told the RE-Source Southeast Conference that took place in Sofia, Bulgaria, in May ...

In this project, GSL ENERGY adopted an advanced lithium-iron-phosphate (LiFePO₄) high-voltage energy storage battery solution, ...

The system, located in Lovech, includes 111 battery containers with lithium iron phosphate devices. It was developed by Advance Green Energy AD, a company owned by ...
