The project aims to enhance grid reliability, expand clean energy access and support Senegal's sustainable energy transition. ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

Energy storage solutions, particularly battery storage and pumped hydro storage, are emerging as critical components in this transition. This analysis delves into the potential, advantages,...

The project aims to enhance grid reliability, expand clean energy access and support Senegal's sustainable energy transition. Construction on the project began in May ...

The national electric utility of Senegal, Senelec, has signed a 20-year capacity change agreement (CCA) with developer Infinity Power for a 40MW/160MWh battery energy ...

The on-time commissioning of Walo Storage demonstrates our ability to support Senegal's energy transition using cutting-edge technology. It is also a key milestone in our ...

This innovative project, led and financed exclusively by African stakeholders, marks a major milestone in the development of renewable energy in Senegal and West Africa.

This innovative project, led and financed exclusively by African stakeholders, marks a major milestone in the development of renewable energy in ...
