How much will Canadian Solar invest in Bess?

Canadian Solar will invest an initial US\$384 million into the lithium-ion battery cell and battery energy storage system (BESS) manufacturing factory at 140 Logistics Drive, Shelby County. The first phase investment will total 3GWh of annual production capacity although the company has not revealed if that is split between cells and BESS.

Will Canadian Solar set up a Bess plant in Kentucky?

Canadian Solar will set up a BESS and cell plant in Kentucky, after the site was vacated by nickel-hydrogen battery firm EnerVenue.

Where is Canadian Solar based?

Canadian Solar was founded in Canada and is listed on the Nasdaq Canada, but its manufacturing and majority of its management team are in China. The investment is being made through its e-Storage subsidiary which currently manufactures BESS in China for deployment largely (to-date) in North and South America, the UK and Australia.
