---

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the ...

SDG& E intends to install 100 MW of additional capacity to the 131-MW Westside Canal battery energy storage system (BESS). The ...

We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility-owned energy storage and another 40+ MW in development.

The new capacity is expected to be fully operational by June 2025. Upon completion, the Westside Canal facility, with a total capacity of 231 MW, will be the largest storage asset in ...

The proposed Seguro Energy Storage project is a battery energy storage system (BESS) with a capacity of up to 320 megawatts (MW) / 1,280 megawatt-hours (MWh)\*, which ...

SDG& E intends to install 100 MW of additional capacity to the 131-MW Westside Canal battery energy storage system (BESS). The upgrade to the project has received the ...

The West Side Canal facility now boasts 231 MW of energy storage capacity and is the largest asset in SDG& E's utility-owned battery storage portfolio. This expansion represents ...

The site now delivers 231 megawatts of storage capacity -- enough to power about 100,000 homes for four hours during peak demand -- making it the largest facility in the ...
