The DIN-T and MOD6 MCBs are current limiting type. That is, a circuit breaker with sufficiently short trip time to prevent the short-circuit current from reaching the peak value defined by B, C ...

Find reliable d curve breakers for various applications. Schneider, ABB, and other top suppliers offer high-quality miniature circuit breakers. Shop now!

1 / 1 NHP DIN-T NHP DIN-T Miniature Circuit Breaker 10kA 2Pole 20A D Curve Item No. DTCB10220D
Product Range: DIN-T MCB

Designed for overload and short-circuit protection in residential, commercial, and light industrial distribution systems, especially suitable for applications with high inrush currents.

Offering 10kA range from 0.5A through to 63A in B, C and D Curve. Allen Bradley circuit breakers can match the appropriate level of protection ...

This Acti9 iC60H is a multistandard low voltage miniature circuit breaker (MCB) with double tunnel terminals. It is a 4P circuit breaker with 4 protected poles, 50A rated current and D tripping curve.

AGM is a leading wholesale distributor of D Curve Circuit Breakers (1 Pole & 3 Pole), power and control equipment.

D-Curve Tripping: Provides protection for circuits with high peak currents (10-14kA) High Breaking Capacity: Rated at 6kA to safely disconnect short-circuit faults
