At BoxPower, our technology combines modular hardware and intelligent software into a unified system that delivers resilient energy for the most challenging environments.

Kaiser Permanente has switched on the U.S. healthcare sector's largest hospital-based renewable microgrid at its Ontario Medical Center, combining solar, battery storage and ...

Built to withstand California's increasingly unstable power grid, this advanced energy system combines over 2MW of solar, 1MW of fuel cell, and a massive 9MWh battery ...

The new microgrid system at the Kaiser Permanente Ontario Medical Center in Southern California adds 2MW of on-site solar generation and 9MWh of non-lithium battery ...

The new microgrid system at the Kaiser Permanente Ontario Medical Center in Southern California adds 2 MW of on-site solar generation and 9 MWh of non-lithium battery ...

Housed at Kaiser's Ontario Medical Center in Southern California, the system provides clean and reliable electrical power to the hospital. Because of its battery storage ...

The organization installed California's first renewable microgrid at its Richmond Medical Center in 2017. With 250 kilowatts of solar generation and 1-megawatt-hour of battery ...

The solar power canopies were installed by Ameresco under a power purchase agreement with Kaiser Permanente. Improvements in battery technologies and climate-driven ...
