Are generators waterproof?

Generators are not waterproof. Although some models may be advertised to run safely in all weather conditions, water and electric-powered generators do not mix. There is a dual risk of harm for you and your generator. However, there are steps to ensure your generator's safe operation in bad weather.

Are solar-powered generators worth it?

Solar-powered generators used to be a niche product geared towards off-the-grid living. They still do the job in that scenario, but as the market matures, with an ever-expanding range of sizes and configurations, the quiet, emissions-free generators are becoming an essential source of backup power for all kinds of homeowners.

What is the best solar generator?

The Jackery, BLUETTI and Goal Zero, in my opinion, are the best solar generators on our list. It's just so lightweight, versatile, and easy to use. The Explorer 500 weighs only 13 pounds with a well-built carrying case, making it simple to pack when traveling. It is perfect for backup generators or camp use.
