The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and ...

This all-in-one system combines energy storage, inverter, cooling, and smart management in an IP54-rated cabinet. It supports grid dispatch, peak shaving, and renewable integration while ...

Each battery cabinet is designed for easy integration, minimizing the need for system reconfiguration during expansions. With provisions for 168 solar panels, the system ...

This all-in-one containerized system combines an LFP (LiFePO4) battery, bi-directional PCS, isolation transformer, fire suppression, air conditioning, and an intelligent Battery Management ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

This all-in-one system combines energy storage, inverter, cooling, and smart management in an IP54-rated cabinet. It supports grid dispatch, peak ...

This solution allows for personalized container encapsulation sizes according to your unique needs. We utilize a safe and efficient lithium iron phosphate battery, integrating ...
