There is an unexpected expansion of requests for integration of Photovoltaic Power Plants (PVPP) into the network of PE "Elektroprivreda" of Bosnia and Herzegovina (PE EP ...

Bosnia and Herzegovina (BiH) is one of the countries that is moving towards greater use of renewable energy sources. It consists of two entities: the Federation of Bosnia and ...

Energy production in Bosnia and Herzegovina is carried out using primary energy from solid fuels, wood biomass, hydropower, as well as other forms of RES (solar and wind energy).

This roadmap aims to increase understanding among a range of stakeholders of the applications that electricity and thermal energy storage technologies can be used for at different locations ...

This article explores the region's solar initiatives, policy frameworks, and how energy storage solutions are reshaping the country's energy landscape.

Renewable energy firm Emax, based in Banja Luka in Bosnia and Herzegovina, has been granted a concession from the Government of the Republic of Srpska entity for the 500 MW ...

Solar developer Clearway Energy will deploy 500MW/2,000MWh of battery energy storage systems (BESS) from technology company W& #228;rtsil& #228; at five PV plants in the US.

Banja Luka, the economic hub of Bosnia and Herzegovina, faces growing energy demands amid rapid urbanization. With energy storage system capacity becoming critical for grid stability and ...
