What is Djibouti's new solar project?

The project will be the first solar Independent Power Project (IPP) in Djibouti and will be located in Grand Bara, south of Djibouti City. The solar project is being fully developed by AMEA Power under a Build-Own-Operate and Transfer (BOOT) model and will generate 55 GWh of clean energy per year, enough to reach more than 66,500 people.

Who signed the Djibouti Solar Power Project (IPP)?

The signing was witnessed by the Minister of Energy and Natural Resources, H.E. Yonis Ali Guedi. The project will be the first solar Independent Power Project (IPP) in Djibouti and will be located in Grand Bara, south of Djibouti City.

Who will take over the Djibouti electricity project?

The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder. The offtaker for the project will be Electricit  de Djibouti. As part of its strategic plan, the Government of Djibouti aims to reduce CO2 emissions by around 40% by 2030.

Who signed the PPA in Djibouti 2023?

The signing ceremony was held in Djibouti on August 27th, 2023. The PPA was signed by Mr. Djama Ali Guelleh, CEO of the national utility company, Electricit  de Djibouti (EDD) and Mr. Hussain Al Nowais, Chairman of AMEA Power. The signing was witnessed by the Minister of Energy and Natural Resources, H.E. Yonis Ali Guedi.

Built with advanced solar modules and energy storage technology, the project is designed to meet the specific challenges of isolated communities where maintenance access ...

US-based developer CWP Global on Monday signed a memorandum of understanding (MoU) with the government of Djibouti to launch a 10-GW renewable energy project that will power ...

AMEA Power, one of the fastest growing renewable energy companies based in the Middle East, announced that it has signed a 25- year Power Purchase Agreement (PPA) with the ...

Djibouti has unveiled one of its most ambitious energy programmes yet -- a nationwide solar-storage grid designed to eliminate chronic power cuts, reduce electricity ...

AMEA Power is rapidly expanding its investments in wind, solar, energy storage and green hydrogen, demonstrating its long-term commitment to the global energy transition.

The 25-megawatt solar project with Battery Storage will support Djibouti's clean energy ambitions by generating 55 GWh of clean energy per year, enough to reach more than ...

UAE-based renewable energy developer AMEA Power has signed a long-term PPA with the national utility of Djibouti for a 25MW ...

UAE-based renewable energy developer AMEA Power has signed a long-term PPA with the national utility of Djibouti for a 25MW solar PV plus battery storage unit. AMEA ...
