Who provided feedback and input to Uzbekistan's solar energy project?

Valuable comments, feedback and input were provided by Bekzod Asadov and Askar Zaitov (the Ministry of Energy of the Republic of Uzbekistan), Philippe Malbranche (the International Solar Alliance), Seung Duck Kim (the Asian Development Bank), and Alexander Zenebe (the EU Delegation to Uzbekistan).

Can floating solar PV increase solar PV capacity in Uzbekistan?

For comparison, the area of the hydropower reservoirs are more than 15 times the size of the world's largest solar park in India, which has an installed capacity of 2.25 GW. In this regard, the potential of floating solar PV on the hydropower reservoirs is a realistic opportunity to further increase solar PV capacity in Uzbekistan.

Should end-of-life solar panels be treated in Uzbekistan?

The treatment of end-of-life solar panels is not an urgent issue in Uzbekistan, but it could be worth considering incorporating appropriate policy measures into the regulations early on. After 2025, power system flexibility gradually becomes visible as an issue, with the increase in VRE generation.

What is a large-scale solar PV project in Uzbekistan?

Large-scale solar PV projects have been subject to competitive bidding processes in Uzbekistan since 2019 and an awarded project can sign a long-term contract with NEGU at a fixed tariff, as noted above. The government of Uzbekistan also aims to develop small- and medium-scale solar projects.

Possible barriers to the deployment of solar energy in Uzbekistan This section explores barriers that could hamper the deployment of solar ...

After discussing the possible barriers to the deployment of solar energy in Uzbekistan, the report presents a roadmap for solar energy by 2030. It provides examples of international best ...

Government subsidies for mobile solar containers could cut your upfront investment by 30-50% in 2025. As Tashkent races to meet 25% renewable energy targets by 2030, these portable ...

This article will delve into the latest statistics on solar energy development in Uzbekistan, reviewing the key achievements of 2024 and outlining the ambitious plans set for 2025 and ...

This Solar Energy Policy in Uzbekistan Roadmap is part of the EU4Energy programme, a five-year initiative
