How much solar power does east & central Africa have?

This hybrid system features 5.2 MWp of ground-mounted solar power, complemented by 4 MW/8.256 MWh of BESS. Once completed, it will be the first wheeling project in East & Central Africa, setting a new benchmark for the region's renewable energy development.

How does solarnow work in East Africa?

SolarNow operates in East Africa, providing high-quality solar home systems and solar water pumps designed for households and agricultural use. Their financing options enable farmers to access solar energy solutions that improve irrigation and productivity.

What is soventix East Africa's hybrid solar system?

A hybrid 14 MWp solar installation, combined with 9 MW/8.256 MWh of BESS and 12 MW of wind power, all integrated into a local microgrid that also includes 16 MW of Heavy Fuel Oil (HFO) generation. This project exemplifies Soventix East Africa's ability to create reliable hybrid systems for large-scale industrial applications.

To be East Africa's most trusted renewable energy partner, driving the transition to sustainable power through innovation, quality products, and exceptional service.
