Could battery storage be a game-changer for Egypt's energy sector?

The integration of battery storage with solar PV is a game-changer for Egypt's energy sector, providing reliable and dispatchable renewable energy and reducing reliance on fossil fuels. It not only meets Egypt's current energy needs but also sets a precedent for future dispatchable hybrid renewable energy projects in the region."

How does solar power work in Egypt?

It takes Egypt's green energy transition to another level by harnessing the power of the sun, not just during the day but also at night, thanks to the combination of solar and battery storage. The project addresses the growing demand for electricity and reduces the need to import expensive fossil fuels.

Could Egypt's summer heat be a solar solution?

Whilst Egypt's summer heat increases its electricity demand, it could also offer a solution. The south of Egypt, where Scatec's new project is breaking ground is "in the magic solar belt," said Elgendy. According to the Global Solar Atlas, Egypt has the fourth-highest solar PV (photovoltaic) potential of any country.

Scatec is a leading renewable energy solutions provider, accelerating access to reliable and affordable clean energy emerging markets. As a long-term player, we develop, ...

On completion, it will be the first integrated solar photovoltaic and battery storage project of this scale in Egypt, and a significant milestone in the country's energy transition.

Egypt's first large-scale hybrid solar and battery plant has begun construction as the country looks to its abundant sunshine to help fix its energy crisis. Obelisk, located in Nagaa ...

Egypt's first large-scale hybrid solar and battery plant has begun construction as the country looks to its abundant sunshine to help ...

In parallel, the company is finalizing negotiations with potential equity partners. CEO Terje Pilskog expressed pride in launching Egypt's first hybrid solar and battery project, ...

Key Figures & Findings: Scatec, a Norwegian renewable power producer, has begun construction of its 1.1GW Obelisk solar and ...
