Automatic BESS Assembly Line by Semco Infratech converts lithium-ion cells into tested, grid-ready energy storage containers with full automation.

LEAD provides cutting-edge battery energy storage systems from module pack to fully automated energy storage container, with a single production line capacity up to 20GWh - the industry's ...

Energy storage technologies are used in multiple applications to assist in balancing and maintaining the energy grid. We provide high-value, high ...

Semco Infratech addresses this challenge with a fully automated Energy Storage Assembly Line--an end-to-end manufacturing solution that converts individual lithium-ion cells into fully ...

An end-to-end automatic BESS assembly line represents a comprehensive manufacturing ecosystem that orchestrates the seamless integration of lithium-ion cells into ...

Our battery pack manufacturing experts will design an automation solution for your Battery Energy Storage System (BESS) or containerized energy storage project, ensuring unmatched ...

A start-up manufacturer of mobile energy storage products needed to optimize their product design for manufacturability, upgrade their automated assembly line for reliability and ...

At Semco Infratech, we've developed comprehensive automation solutions specifically optimized for BESS container assembly, from semi-automated lines for emerging producers to fully lights ...
