one-package General Description STARPOWER IGBT Power Module provides ultra low conduction loss as well as short circuit ruggedness. They are designed for the applications such as ...

The 1200V Common Emitter IGBT Modules provide higher current capability in existing packages, allowing an increase in inverter output power with the same frame size.

Overview Our portfolio of 1200 V IGBT power modules comprises different product families, configurations, current ratings, as well as IGBT chip generations.

High-efficiency 1200V, 100A IGBT module with low losses, superior thermal management, and robust reliability for industrial and ...

Unit K? K Figure 1: Typical Output Characteristics for IGBT Inverter 200 160 120

Full Bridge IGBT 7 Power Module APTGX100H120T3G Product Overview The APTGX100H120T3G device is a full bridge 1200V, 100A Insulated-Gate Bipolar Transistor ...

This is a 30kW Inverter, an efficient and highly reliable energy storage solution developed for small and medium-sized microgrids, supporting 30 kW PCS solar integration with competitive ...

The SGG100T120UC1 1200V 100A IGBT MODULE is designed for high-performance uses, guaranteeing accurate voltage regulation and effective energy management. This module ...
