The project aims to enhance grid stability and support Finland's transition to renewable energy sources. The PowerTitan system ...

This Battery Energy Storage System (BESS) project is located less than 100 km south of the Arctic Circle and is made up of 26 Sungrow PowerTitan battery containers.

Sungrow, the global leading PV inverter and energy storage system provider, announces the successful deployment of the 60MWh battery storage project in Simo, Finland.

Global solar and energy storage leader Sungrow has announced the successful commissioning of a 60MWh Battery Energy Storage System (BESS) project in Simo, Finland, ...

Simo, Finland, May 16, 2025 -Sungrow,the global leading PV inverter and energy storage system provider, announces the successful deployment of the 60MWh battery storage project in Simo, ...

Sungrow announced the successful deployment of the lithium-ion (Li-ion) battery energy storage system (BESS) in Simo, ...

In northern Finland, less than 100 kilometres south of the Arctic Circle, a new battery storage facility is now supporting the stability of the regional power grid. The plant, ...

Sungrow announced the successful deployment of the lithium-ion (Li-ion) battery energy storage system (BESS) in Simo, Finland, around 785km north of the capital Helsinki.
