Our high-quality solar collectors deliver solar energy efficiently and reliably year after year, and are suitable for all types of solar thermal installations. Use free solar energy for heating and ...

Solar Collectors--or panels--gather energy radiated by the sun and convert it into useful heat in the form of hot water. Collectors work alongside your conventional water heater to ensure year ...

Using solar flat plate collectors, you can take advantage of the sun's abundant energy to lower your own energy costs. This means lower bills ...

A flat plate solar collector (FPC) is a solar thermal device that uses a flat, black-colored plate to capture sunlight and generate thermal energy. It transfers this heat to a ...

Alternate Energy Technologies (AET) proudly manufactures all flat plate solar thermal collectors in the U.S.A., catering to the diverse requirements of any solar water heating system.

Superior Construction - The low iron solar glass and high R-insulation allow these flat plate collectors to maximize the absorption of the solar radiation. The copper piping connects ...

Sun Source Energy Products is proud to carry the SunEarth Empire & ThermoRay series of flat plate collectors. These products provide 3 different levels of efficiency in a sleek, low profile ...

Flat-plate solar collectors are composed of metal boxes with transparent glazing, and an absorber plate. The sides and bottom of the collector are covered with insulation to minimize ...
