This module is an uninterruptible power supply (UPS) that maintains continuous operations in the rigorous and unpredictable underground mining and tunnelling environments.

Optimizing mine power by balancing CAPEX, OPEX and up time of electric power at every phase of a mine. With longer maintenance intervals, higher fuel efficiency and competitive repair ...

With MIL-STD compliance and 2U high power density, IntelliShield is trusted in military, industrial, oil & gas, mining, transportation, and remote IT ...

Recognising the unique demands of this sector, SEQ UPS specialises in providing robust, Uninterruptible Power Supply (UPS) systems tailored to withstand the rigours of mining ...

This module is an uninterruptible power supply (UPS) that maintains continuous operations in the rigorous and unpredictable underground ...

For safe and efficient operations in an underground mine, a reliable, intrinsically safe power supply is essential. The CUBEx PS12 Intrinsically Safe Universal power supply offers 9 ...

The Austdac Uninterruptible Power Supply (UPS) type 12/NMH/288 has been designed to provide battery backup for equipment located in hazardous areas that operates from a nominal 12Vdc ...

Safeguard critical devices and hardware with an uninterruptible power supply that will allow you to safely shutdown and backup data in emergency situations. Our advanced systems are suitable ...
