The Slate Titanium is darker than the graphite but only slightly so. But I heard that the Milanese band on the other hand, the new Slate vs the old Graphite are almost identical, ...

First of all, the slate color is quite a bit darker than graphite, but not as black as my AW2 Space Black (though quite close). I have a Space Black Link Bracelet from 2017, and it ...

Graphite and Slate look very similar in the images (click an image to expand, and then hop back and forth to compare).. I've got graphite S8, and I like the colour. I don't think I'd ...

Hi i've purchased my first graphite stainless steel watch just over 2 weeks ago . I'm already noticing micro scratching on the case in random places. I've only worn it with sport ...

The Slate Titanium would be the closest match to the Jet Black with the benefit of the Sapphie glass, however will it go with alot of the styles of bands I already have had in the ...

I own a S7 SS graphite with Milanese, and also would like to know which of the S10 Ti color would match best with the graphite band so I don't need to get another Milanese with ...

Now I'm considering changing to either stainless steel silver or graphite with either a silver or graphite Milanese band. Truthfully, it's more than I want to spend, but I can splurge for ...

Wow what a great band. I really love the new milanese loops that Apple has designed for the Apple Watch Ultra. They fit so well and are feel fantastic. I've always liked the ...
