Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, Engineering, Architecture, Planning and Products. A plethora of in-house perspectives allows us to see ...

BIG has grown organically over the last two decades from a founder, to a family, to a force of 700. Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, Engineering, ...

The Mountain is a hybrid combining the splendors of a suburban lifestyle: a house with a big garden where children can play, with the metropolitan qualities of a penthouse view and a ...

BIG reimagines the museum as a 2300 m² building building with space for workshops, events, teaching rooms, storage, and office facilities. The adaptive reuse project is pursuing DGNB ...

Quickly determine your solar panel array size: enter daily kWh, panel wattage, and sunlight hours to get a precise estimate of your system size.

BIG's aim was to amplify Treehotel's focus on sustainability and natural tourism, and create a resilient design in a region with strong seasonal climatic contrasts.

To generate 50 kWh of electricity, approximately 200 square meters of solar panels are required, assuming an average solar panel efficiency and solar irradiance. This translates ...

For a 50kW solar power system, the first consideration when asking "How Many Solar Panels Are Needed for a 50kW Solar System?" is to calculate the required energy generation. Then, the ...
