How much does a container cost in India?

Both ownership models exist in India's container market: Leasing (short-term): Ideal for temporary projects or one-off exports. Monthly lease rates for 20 ft dry containers average INR3,000-INR4,500, depending on tenure. Purchase: A one-time investment suited for frequent shippers or storage users.

How much does a 20 ft dry container cost in India?

Based on aggregated listings and India-specific market data: A new 20-ft dry container typically ranges around INR1.60 lakh to INR2.00 lakh. A used 20-ft dry container (cargo-worthy) generally goes for INR0.80 lakh to INR1.20 lakh. A new 40-ft dry container commonly costs around INR2.00 lakh to INR2.50 lakh.

How does depreciation affect container prices in India?

Container prices are often benchmarked in USD. With the rupee averaging INR87.9 per USD in late 2025, any depreciation directly raises container import or leasing costs. Even domestic resellers adjust pricing to account for global USD-indexed trade values, which means Indian buyers indirectly absorb exchange-rate risk.

Are BESS containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative.
