"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said ...

This isn't fiction - Kathmandu's power demand grew 18% annually since 2020, yet 6-hour daily blackouts remain common. The solution? Strategic energy storage deployment. "Energy ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This ...

Take Nepal's first solar-storage PPA signed last week - a 25-year deal guaranteeing 14% IRR through monsoon/winter price arbitrage. As Asian Development Bank's energy lead Priya ...

Nepal Electricity Authority (NEA) has expedited construction of pumped storage hydropower projects (PSHP), citing the low production cost of ...

Energy storage systems primarily feature various technologies like lithium-ion batteries, flow batteries, lead-acid batteries, and other emerging technologies. Each option ...

Nepal Electricity Authority (NEA) has expedited construction of pumped storage hydropower projects (PSHP), citing the low production cost of electricity out of these projects and ...
