How do I install a battery cabinet?

Install plastic covers onto batteries. Some covers may need to be notched for locations with bus bars and/or cables in upward orientation. Ground the battery cabinet to the main building ground. A ground stud inside the cabinet is provided for this. Refer to the UPS or charger manual for start up and operation of system.

How do you ground a battery cabinet?

Ground the battery cabinet to the main building ground. A ground stud inside the cabinet is provided for this. Refer to the UPS or charger manual for start up and operation of system. 8. SYSTEM MAINTENANCE

What should I know before installing a battery cabinet system?

Never enclose batteries or battery cabinets in a sealed air tight room. All jewelry and watches must be removed prior to installing or servicing this system. Do not smoke or present flame near or around any battery cabinet system. Never leave a panel off or door open and unattended. 3. INSPECTION UPON RECEIPT OF GOODS

How much does a battery cabinet weigh?

Battery cabinet systems are very heavy. Total weight of a loaded cabinet can exceed 6100 lbs. Use at least 3 people when unloading and setting equipment in place. It is imperative that only qualified personnel work on this system and installation, maintenance or upgrades be performed with insulated tools and equipment.
