How to install a battery cabinet in the battery solution?

1. Perform the following steps on all battery cabinets in the battery solution. a. Remove the cover in front of the start-up button and push the start-up button. o The PSU2 LED and the POWER LED will turn on. o The ABNORMAL and ALARM LEDs should remain off. b. Reinstall the cover in front of the start-up button.

How do I connect a ups to a battery cabinet?

Attach a signal cable3(not provided) to the male adapter connector in the correct length to reach from the battery cabinet to the UPS. As an alternative, you can also crimp the signal cable extensions. Ensure that the crimp point is inside the battery cabinet, not in conduits or cable trays outside the battery cabinet.

What are the safety requirements for a battery cabinet?

o The battery cabinet must be properly earthed/grounded and due to a high leakage current, the earthing/grounding conductor must be connected first. Failure to follow these instructions will result in death or serious injury. Battery Safety DANGER

How do I connect 0w76928 to a battery cabinet?

1. Route signal cable 0W76928 from CAN 2 port of battery cabinet 1 to the CAN 1 port of battery cabinet 2. Repeat for the remaining battery cabinets. Do not connect the CAN cables, Schneider Electric service will complete the connections during start-up.
