---

Huawei, a leading global ICT and network energy solutions provider, teamed up with Jordanian solar manufacturer and developer Philadelphia Solar to power the world's ...

The project is one of the world's largest PV installations built for a single facility, enabling the multi-specialty hospital to provide high quality and patient-centered healthcare from a clean ...

It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge ...

Amid rising global occurrences of severe weather events--including the hailstorm that struck Amman, Jordan, in May 2023, damaging solar PV modules in the Shafa'a Badran ...

Huawei teamed up with Philadelphia Solar to power PV farm built for a single health care facility, Abdali Medical Center, in Amman.

This reference video showcases the successful delivery of the Al Baha Company for the Caustic and Chlorine industry Solar Project, powered by Huawei inverters supplied by Solis Depot.

At the Red Crescent Hospital in Amman, a 328.635 kWp solar PV system has been deployed to support medical services with sustainable power.

This project reflects our shared vision of advancing energy efficiency, reducing carbon emissions, and supporting Jordan's renewable-energy transformation.
