Headquartered in Milan, Italy, Italfarad specializes in the production of a wide range of capacitors, including aluminum electrolytic, film, and ceramic capacitors.

ITELCOND is a historic Italian company which has since 1976 been manufacturing high-capacity aluminium electrolytic capacitors for applications requiring a high level of quality.

Our expertise can help our Customers on 105°C products with very good lifetime characteristics, while the majority of products rated 85°C have the excellence of non-flammability, which is an ...

Our company has been producing high-capacity aluminum electrolytic capacitors for over 30 years for applications that require a high level of quality; therefore, we cater to various ...

This paper conducts a comprehensive review of SCs, focusing on their classification, energy storage mechanism, and distinctions from traditional capacitors to ...

This design gave a capacitor with a capacitance on the order of one farad, significantly higher than electrolytic capacitors of the same dimensions. This basic mechanical design remains the ...

100% Italian production of low, medium and high voltage capacitors, power factor correction banks, inductors and reactive energy compensation solutions.

ITELCOND is a historic Italian company which has since 1976 been manufacturing high-capacity aluminium electrolytic capacitors for ...
