Will JPS build a solar power plant in Jamaica?

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The renewable energy facility will replace JPS's aged Hunts Bay...

How can battery energy storage help Jamaica?

Battery energy storage systems (BESS) are now emerging as a cornerstone technology to address these challenges--helping Jamaica stabilize its grid, unlock more renewable energy, and reduce electricity costs for both consumers and businesses. The country's electricity cost can reach as high as \$0.32 per kilowatt-hour, far above global averages.

Why is energy storage important in Jamaica?

Jamaica is committed to reducing its dependence on imported fossil fuels. The country's National Energy Policy sets an ambitious target: 50% of electricity from renewable sources by 2037. Energy storage plays a critical role in achieving this target. Key policy support includes:

Are microgrids the future of energy in Jamaica?

Microgrids reduce diesel fuel dependency, extend energy access, and promote community-level energy independence. These modular systems can scale with demand and offer a sustainable alternative to costly grid expansion. Battery energy storage systems are no longer optional--they are essential to Jamaica's clean energy future.

Battery energy storage systems are no longer optional--they are essential to Jamaica's clean energy future. From reducing grid stress and lowering energy costs to enabling widespread ...

Battery energy storage systems are no longer optional--they are essential to Jamaica's clean energy future. From reducing grid stress and lowering ...

Jamaica Public Service Company Limited (JPS) is seeking applications for the engineering, procurement, and construction services for a 115 MW utility-scale solar plant, a ...

GSL Energy, a leading provider of energy storage solutions, has successfully deployed three 14.34 KWH floor to floor lithium iron phosphate (LiFePO4) energy storage ...
