Who makes custom battery packs?

As a custom battery pack manufacturer for over 40 years, Cell-Con designs and assembles custom battery packs with the simplest requirements to those with highly complex specifications.

Is a custom battery pack better than a lithium-ion battery pack?

In some instances, a custom NiMH battery pack or custom alkaline battery pack may perform better than a lithium-ion battery pack, while keeping your costs lower. When involving our team of engineers early on in the design process, we can help assist you in choosing the proper custom battery solutions for your needs.

Who makes the best battery packs?

Our factory partners are known for only using the best quality Tier 1 cells from leading manufacturers like Panasonic, Sanyo, LG, Samsung, and Moli Energy, and having highly skilled operators and supervisors that are expertly trained in manufacturing battery packs.

Explore a wide range of custom battery pack assemblies in various chemicals and styles. Contact us to get a quote tailored to your specific application!

Learn more about our custom battery pack design to optimize the cost and performance of your next product. Fill out our form to provide us with more information about your project and ...

Custom battery packs for various industries, ranging from simple primary alkaline to highly advanced lithium systems with cloud-based management. Four factories certified for ...

Global Sources has a full-scale list of wholesale OEM battery pack products at factory prices featured by verified wholesalers & manufacturers from China, India, Korea, and other countries ...

We are a full-service custom battery manufacturer with full design and engineering capabilities. Our team has extensive experience with lithium-ion, lithium polymer, nickel metal hydride, ...

Custom smart battery pack assembly for OEMs in medical, industrial, and military markets--Li-ion, LiFePO<sub>4</sub>, NiMH solutions with full design and ...
