CAP-XX is an Australian company established in 2005 specializing exclusively on R& D and IP licensing of proprietary supercapacitors to consumer, automotive and industrial partners.

In this segment, we explore 10 new supercapacitor companies. Some of these firms manufacture graphene-based supercapacitors with increased ...

Explore the top 7 supercapacitor manufacturers that are leading the way in energy storage innovation. Discover industry leaders, cutting-edge technologies, and their global impact.

In this segment, we explore 10 new supercapacitor companies. Some of these firms manufacture graphene-based supercapacitors with increased conductivity and thermal performance. A few ...

Established in 1997, the company has become a leading global provider of high-performance supercapacitors renowned for their excellence in energy storage and delivery ...

In 2025, global shipments of super capacitors are expected to exceed 1.4 billion units, driven by their growing adoption in electric vehicles, renewable energy systems, ...

Established in 1997, the company has become a leading global provider of high-performance supercapacitors renowned for their ...

The company manufactures small-cell supercapacitors for memory backup, burst power support, and configurable ultracapacitor modules that are customizable from 6V TO 48 V.
