What is a solar roof tile?

The solar roof tile replaces conventional roof tiles and integrates seamlessly into the roof structure. Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure.

Where can I buy solar roof tiles?

The uniform visible surface also facilitates visually attractive roof integration. Solar tiles are currently available in Switzerland from the company AGZ-Ziegeleien and in Scandinavia from Skarpnes (under the brand name Vatio). The market launch in Germany is being planned.

How do solar roof tiles work?

Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure. The size format is equivalent to five flat tiles, further accelerating installation. The uniform visible surface also facilitates visually attractive roof integration.

Solar tiles a good option? Whatever the type of project, be it a new build or renovation works, our solar tiles are designed to fit perfectly onto and provide a watertight seal for sloping roofs when ...

Solar roof tiles provide an aesthetically pleasing alternative to traditional solar panels, integrating into the roof structure while generating renewable energy.

A location like Liechtenstein, for example, is uniquely positioned for success in niche solar manufacturing, even though it would almost certainly fail in mass production.

Not only does Liechtenstein have limited access to solar infrastructure, there is also no domestic supplier or manufacturer of solar equipment. As of now, it depends on importation of solar ...
