How long do SLI street lights last?

SLI's X-35-LED and Stealth II model solar powered street lights are designed for a 20-year service life, use Phillips Illumined 5050 LED Chips, long long-life LiFePo4 batteries, and are powder-coated to resist harsh saltwater environments.

Are solar street lights good for the environment?

We've addressed remarkable technological advancements, from efficient photovoltaics and LEDs to intelligent, adaptive systems. The environmental benefits are clear, positioning solar street lights as a key player in reducing carbon footprints and aiding the fight against climate change. Request A Quote for Your Lighting Projects!

Are solar street lights better than traditional street lights?

Maintaining traditional street lighting systems often entails periodic bulb replacement, servicing, and labor costs associated with ensuring consistent operation. Conversely, solar street lights are engineered for long-term resilience with LED lights with extensive operational lifespans and more minor routine maintenance needs.
