It has two or more functions of metering, measurement, control, protection, power distribution, reactive power compensation, harmonic control, and three-phase imbalance adjustment.

The product has a series of protections such as grid low voltage, grid overvoltage, input lightning protection, system overcurrent, grid isolation, etc. Accurate electric energy metering, ...

The GGD Photovoltaic Grid-connected Cabinet is designed for solar photovoltaic grid-connected power generation systems. It serves as the electrical energy conversion, distribution, and ...

It has two or more functions of metering, measurement, control, protection, power distribution, reactive power compensation, harmonic control, and ...

The GGD photovoltaic energy storage switchgear low voltage distribution cabinet represents a significant advancement in the management of solar energy systems. With its modular design, ...

We offer two main types of PV grid connected cabinets to cater to different needs: GGD AC low-voltage distribution cabinets are suitable for power ...

We offer two main types of PV grid connected cabinets to cater to different needs: GGD AC low-voltage distribution cabinets are suitable for power plants, substations, and industrial enterprises.

GGD Switchgear Series is primarily used in power plants, substations, and industrial/mining enterprises for 50-60Hz AC distribution systems, accommodating up to 4,000A rated current. ...
