The Salima Solar Power Project in Malawi is poised to be a game-changer for the country's energy landscape. Scheduled for commissioning by December 2025, this ambitious ...

Malawi is building its first battery-energy system, a technology that will help protect its grid from cyclones that have battered the southern African nation in recent years.

As the first utility-scale plant in the region to use a battery storage system, the project generates energy to the national grid for use by homes and businesses. Its capacity to store up to 10MW ...

The 20MW Golomoti Solar PV and Battery Energy Storage Project in Malawi has successfully entered commercial operations. The project is the first utility-scale grid-connected hybrid solar ...

Located in the Dedza district of Malawi near the town of Golomoti, the 20MWac solar PV and 5MW/10MWh energy storage project is set to become a leading project in sub-Saharan Africa ...

GEAPP's first battery energy storage system (BESS) project in Africa, a 20 MW BESS in Malawi's capital city, Lilongwe.

As Malawi rolls out its landmark 30 MW/120 MWh battery energy storage system (BESS) this quarter, it's not just about keeping lights on--it's about rewriting Africa's energy playbook.

Malawi was bringing more solar power onto the grid but instability, with frequent nationwide outages disrupted homes, businesses, and essential services. To fix this, Malawi ...
