French renewable energy producer Qair has secured a loan agreement to finance the construction of 60 MW of hybrid solar and storage projects in Mauritius.

Ultimately, this hybrid solar and storage project is more than just an energy plant; it is a cornerstone for a cleaner, more resilient energy future for Mauritius.

French renewable energy company Qair has signed a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

The government of Mauritius has inaugurated a 20 MW grid scale battery energy storage system from Siemens to help meet its goals of 60% renewable energy by 2030.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid ...

Qair has announced the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system project in Mauritius.

Port Louis energy storage cabinet containers are transforming how Mauritian businesses manage power reliability and costs. From solar integration to industrial backup systems, these solutions ...

French independent renewable energy company Qair has successfully closed financing for a groundbreaking hybrid solar photovoltaic and battery energy storage system ...
